

CSE411s Real-Time Embedded Systems

### **Assignment 1**

#### **Forcing a Context Switch from an ISR**

Deadline: **Monday 2024-05-07 Tuesday 11:59pm**

Assignment Type: **Individual**

#### **Description**

It is required to implement a simple kernel running two tasks 'A' and 'B'. Your simple kernel API should provide a function that forces context switch from an ISR.
